▶ TABLE OF CONTENTS

Despite making every effort to prepare the current offer, we do not guarantee the constancy of products and specifications contained in the catalog.

Laser engraving

Method used for permanent marking on metal, leather, wood and plastic articles. Engraving is durable and indestructible, giving a very elegant effect.

Full-Color print

This technique is characterised by more details, allowing printing within a full range of colors.

Hot stamping

An elegant marking method consisting of embossing sign together with a gold or silver foil. Available on: Giftbox, Casebox, Coverbox and even Easybox.

LED backlit

A special engraving illuminated from underneath by a white LED.

Data uploading

Our USB flash drives may be delivered with recorded contents (such as presentation, catalogues, promotional materials, etc.).

Glossy / matt fishing

Print boxes can be covered with a special foil that reflects the light (the effect of the glossy surface) or absorbs it (the effect of the matt surface).

Flashlight

Products with a built-in LED flashlight (power 1W).

Pad printing

Enables various colors to be printed. This technique is characterised by the high quality and durability of workmanship.

Doming - 3D sticker

Sticker covered with synthetic resin. This is durable (protection against damage and discoloration) and impressive labelling technology.

Embossing

Printing method involving stamping hot die on the leather or leather-like materials.

Box with graphics

You can order a personalized box for products with this symbol.

Accessories

Products with this symbol include accessories such as strings, carabiners, chains and cables.

Wireless

Wireless products with 2.4Ghz transmitter.
